## ACCOMMODATIONS

Inspired by the calming colours of Chinese gardens, the 202 spacious guest rooms and suites with contemporary stylistic features with high ceilings and elegant monolithic volumes in grey, create an expansive tranquil space. Adding depth and interest to the interiors, the walls are painted in textured paint in signature hues of blue, pink and green, to complement the hotel's custom-made wooden furniture.

The rooms and suites are decorated with curated artworks by artists from China, Singapore, and Japan. With black and white ink as a main theme, the artworks span paintings and sculptures, bringing art and culture alive in the spaces.
